

# Overview

All billable resources are attached to a project. At the beginning of each hour, your resources will be billed and the hourly cost will be deducted from the project owner's balance.

If your balance reach zero your services will be suspended and you won't be able to restart them until you add credits to your balance. You must have at least \$5 of credits on your balance to be able to start a service.

Once your services are suspended you have only a few days to add credits to your balance before your services are deleted. Once deleted you have 14 days to restore them. In case of a restoration, you will get a new IP address.

The screenshot shows the Elestio Billing interface for project 'elestio-services'. The left sidebar contains navigation options: Services, Volumes, Load Balancer, CI/CD, Domains, Members, Billing (highlighted), Project Setting, Audit Trail, Account, Support Tickets, and Documentation. At the bottom of the sidebar, it shows a balance of \$138.51 in credits and a spending rate of \$0.0140/hour. The main content area is titled 'Billing for project elestio-services' and features three summary cards: 1 Service, \$0.0140 Cost per hour, \$10.22 Monthly cost, and \$123.49 Total spend since account creation. Below these cards is a search bar and a table of bills.
