

Add a member

Want to invite someone to your team?

To invite a member:

1. Select **Members** from the Main menu on the left of the Dashboard
2. Press the **Add Member** button
3. Enter the member's email address and select their access level
4. Press **Send Invitation**

Admins are authorized to invite more users to a project. Admins have full access to make changes to services.

Read-Only members are only allowed to view services but are unable to make any changes.

The invited member will receive a confirmation email containing their username (email) and password. They can use this to log in to the elestio dashboard.

The screenshot displays the Elestio dashboard interface. On the left is a sidebar menu with the 'elestio' logo at the top, followed by 'PROJECT: elestio-services' and a list of navigation items: Services, Volumes, Load Balancer, CI/CD, Domains, Members (highlighted), Billing, Project Setting, and Audit Trail. The main content area is titled 'Members' and features an orange '+ Add Member' button in the top right corner. Below the title is a table with columns for 'User Email', 'Member type', and 'Created'. The table contains two rows of member data. The first row shows a user email ending in 'project owner)', an 'Admin' role, and a creation date of '8 months ago', with a user icon to the right. The second row shows a redacted email, an 'Admin' role, and a creation date of '5 months ago', with a user icon to the right. A 'Load' button is located at the bottom right of the table.

User Email	Member type	Created
[redacted] project owner)	Admin	8 months ago
[redacted]	Admin	5 months ago

NEW PROJECT SHARED WITH YOU

david ([REDACTED]) has shared with you the project: default to collaborate as read member.
