

Add a member

Want to invite someone to your team?

To invite a member:

1. Select `Members` from the Main menu on the left of the Dashboard
2. Press the `Add Member` button
3. Enter the member's email address and select their access level
4. Press `Send Invitation`

Admins are authorized to invite more users to a project. Admins have full access to make changes to services.

Read-Only members are only allowed to view services but are unable to make any changes.

The invited member will receive a confirmation email containing their username (email) and password. They can use this to log in to the elestio dashboard.

The screenshot shows the 'Members' page in the Elestio dashboard. On the left is a sidebar with the 'elestio' logo and a navigation menu including 'Services', 'Volumes', 'Load Balancer', 'CI/CD', 'Domains', 'Members' (highlighted), 'Billing', 'Project Setting', and 'Audit Trail'. The main content area is titled 'Members' and features a table with columns for 'User Email', 'Member type', and 'Created'. There are two rows of members listed. The first row shows a user with the role 'Admin' added '8 months ago'. The second row shows another user with the role 'Admin' added '5 months ago'. An orange '+ Add Member' button is located in the top right corner of the main area. A 'Test' button is visible at the bottom right of the table area.

User Email	Member type	Created
[redacted] project owner)	Admin	8 months ago
[redacted]	Admin	5 months ago

NEW PROJECT SHARED WITH YOU

david ([REDACTED]) has shared with you the project: default to collaborate as read member.
