

Add a member

Want to invite someone to your team?

To invite a member:

1. Select **Members** from the Main menu on the left of the Dashboard
2. Press the **Add Member** button
3. Enter the member's email address and select their access level
4. Press **Send Invitation**

Admins are authorized to invite more users to a project. Admins have full access to make changes to services.

Read-Only members are only allowed to view services but are unable to make any changes.

The invited member will receive a confirmation email containing their username (email) and password. They can use this to log in to the elestio dashboard.

The screenshot shows the Elestio dashboard interface. On the left is a sidebar menu with the 'elestio' logo at the top, followed by 'PROJECT: elestio-services' and a list of menu items: Services, Volumes, Load Balancer, CI/CD, Domains, Members (highlighted), Billing, Project Setting, and Audit Trail. The main content area is titled 'Members' and features a table with the following columns: 'User Email', 'Member type', and 'Created'. There is also an '+ Add Member' button in the top right corner. The table contains two rows of member data:

User Email	Member type	Created
[redacted] project owner)	Admin	8 months ago
[redacted]	Admin	5 months ago

NEW PROJECT SHARED WITH YOU

david ([REDACTED]) has shared with you the project: default to collaborate as read member.

Please find your credentials:

Email: [REDACTED]

Password: llkbiHWP
