

Delete a member

You can easily delete a member from your project when and if you need to.

Only admins can delete other members.

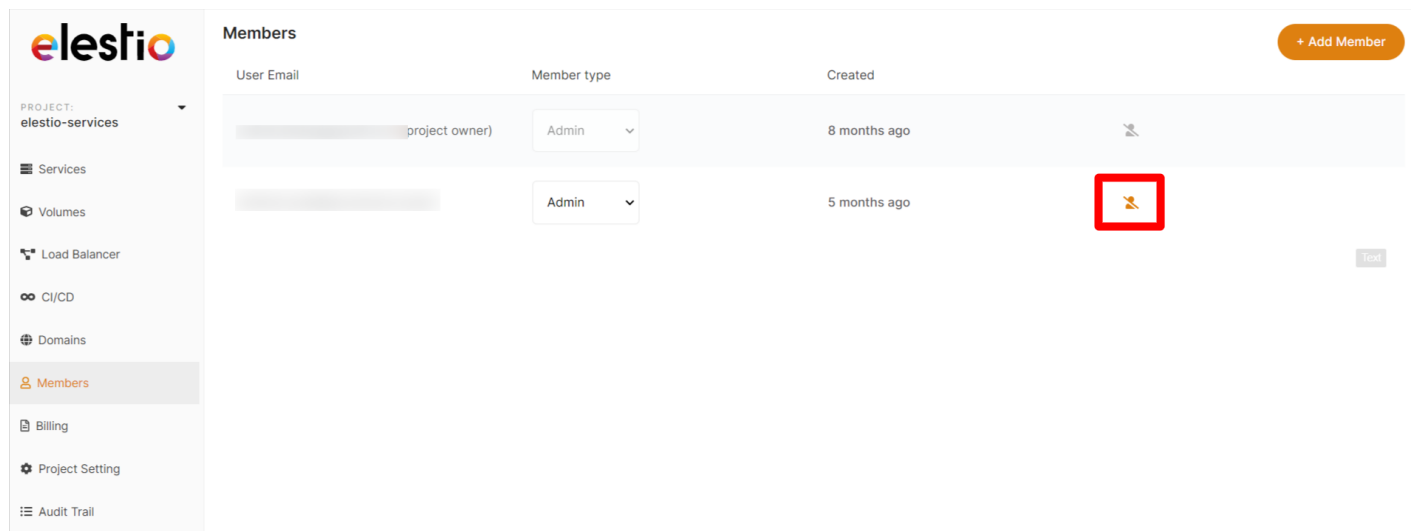

To delete a member:

1. Select **Members** from the Main menu tab on the left of the Dashboard.
2. Click on the user icon to the right of the user you wish to delete.
3. Confirm you really wish to delete the user before pressing **Remove**
4. Deleted users will automatically lose access to your elestio project.

Deleting a member from the elestio dashboard only removes their access to elestio, not your deployed services.

If appropriate, please consider revisiting your service credentials.

The project owner cannot be deleted by other Admins.

The screenshot shows the Elestio dashboard with the 'Members' tab selected in the left sidebar. The main content area displays a table of members. The first member is the 'project owner' (Admin, 8 months ago). The second member is an 'Admin' (5 months ago). A red box highlights the user icon for the second member, indicating the action to click for deletion. A '+ Add Member' button is visible in the top right corner of the members list.

User Email	Member type	Created	
[redacted] (project owner)	Admin	8 months ago	[icon]
[redacted]	Admin	5 months ago	[icon]

Revision #6
