

Leave a project

Read-only users are able to leave projects.

1. Select **Members** in the left menu
2. Select the **Leave Project** icon to the right of the project you wish to leave

The screenshot shows the Elestio interface with the 'Members' page selected in the left sidebar. The main content area displays a table of members. The table has columns for 'User Email', 'Member type', and 'Created'. There are two members listed. The first member is the 'project owner' with an 'Admin' role, created '8 months ago'. The second member is an 'Admin' role, created '5 months ago'. To the right of the second member, there is a 'Leave Project' icon (a person with a red X). In the top right corner, there is a '+ Add Member' button. In the bottom right corner, there is a 'Test' button.

User Email	Member type	Created
[redacted] (project owner)	Admin	8 months ago
[redacted]	Admin	5 months ago

Revision #5
