

Leave a project

Read-only users are able to leave projects.

1. Select **Members** in the left menu
2. Select the **Leave Project** icon to the right of the project you wish to leave

The screenshot displays the 'Members' page in the Elestio interface. On the left, a sidebar menu includes 'Services', 'Volumes', 'Load Balancer', 'CI/CD', 'Domains', 'Members' (highlighted), 'Billing', 'Project Setting', and 'Audit Trail'. The main content area shows a table of members with columns for 'User Email', 'Member type', and 'Created'. The first member is the 'project owner' with an 'Admin' role, created '8 months ago'. The second member is an 'Admin' role, created '5 months ago'. A 'Leave Project' icon (a person with a red X) is visible next to the second member. A '+ Add Member' button is located in the top right corner. A 'Text' button is visible at the bottom right of the table area.

User Email	Member type	Created
[redacted] (project owner)	Admin	8 months ago
[redacted]	Admin	5 months ago

Revision #5
