

Manage projects

Changing project settings

Select **Settings** from the left menu.

You can easily rename your project, change the technical email target and update the project description.

Don't forget to press **Save** to store your update!

The screenshot shows the Elestio interface. On the left is a sidebar with the 'elestio' logo and a menu for 'PROJECT: elestio-services'. The menu items are: Services, Volumes, Load Balancer, CI/CD, Domains, Members, Billing, Project Setting (highlighted with an orange star), and Audit Trail. The main content area is titled 'Settings' and includes a 'Delete Project' button in the top right. It contains three input fields: 'Project Name' (with 'elestio-services' entered), 'Technical Email' (with 'Enter Technical Email' as a placeholder), and 'Project Description' (with 'Hey' entered). An orange 'Save Information' button is located below the Project Name field.

Revision #6
