

Update AWS Account Access and Secret Credentials

You can update your AWS Access and Secret Credentials at any time inside your project settings.

To update AWS account credentials, go to the project settings in the left sidebar and then to the AWS Account tab.

Enter your AWS Account Administration New access Access Key and Secret Key here, then click the *Update Credentials* button to validate your new AWS access credentials.

Project AWS Account

Connected Account Number: XXXXXXXXXX

i On your AWS account, please make sure that you have granted an Administration access to these keys and enabled regions in which your services are running.

<p>Access key</p> <input style="width: 95%; border: 1px solid #ccc; padding: 5px;" type="text" value="XXXXXXXXXXXXXXXXXXXXXXXXXXXX"/>	<p>Secret key</p> <input style="width: 95%; border: 1px solid #ccc; padding: 5px;" type="password" value="....."/>
--	---

Update Credentials

When you click **Update Credentials**, a confirmation prompt will appear. If you want to update your credentials, click **Update**; otherwise, click **Cancel** to reject the update.

Aws Access Credentials

Do you really want to update your AWS access credentials?

WARNING Please make sure that you have enabled the regions where your services are running on your AWS account and granted **Administration** access to these keys; otherwise, your actions could have an adverse effect on the services that are currently running in these projects.
