

Manage SSH Keys

From the Dashboard, navigate to the *Security* tab and select the *Show Options* button to Manage SSH Keys.

From here, you can add or remove SSH keys allowed on the server.

Add an SSH key

Click on the *Add key*. Simply give your key a title and save!

Deleting an SSH key

Select the 'trash' icon to the right of the key you wish to delete. We'll always double-check with you before making a deletion, just to be sure!
