# VSCode

From the *Tools* tab in the service overview, click on VS Code button to start VS Code in the browser directly in the context of your service.

From there you can edit the configuration, download or upload files with drag&drop on the left column or open a terminal

The first launch can take up to 1-2 minutes while VS Code installs.

# Reset SSH/SFTP Password

By default, password authentication is disabled. For security reasons, we recommend using SSH Pubkeys instead.

From the Tools tab in the service overview, click on the "Reset Password" button
