# VSCode

From the *Tools* tab in the service overview, click on VS Code button to start VS Code in the browser directly in the context of your service.

From there you can edit the configuration, download or upload files with drag&drop on the left column or open a terminal

The first launch can take up to 1-2 minutes while VS Code installs.

## Get Started

### Get Started with VS Code in the Web

Discover the best customizations to make VS Code in the Web yours.

**Choose the look you want**

The right color palette helps you focus on your code, is easy on your eyes, and is simply more fun to use.

[Browse Color Themes](#)

Tip: Use keyboard shortcut (Ctrl+K Ctrl+T)

- One shortcut to access everything
- Just the right amount of UI
- Rich support for all your languages
- Quickly navigate between your files

✓ Mark Done      Next Section →

Light      **Dark**      High Contrast

# File Explorer

From the Tools tab in the service overview, click on the "File Explorer" button.

The first launch can take 1-2 minutes because File Explorer is installed on your service. The next launch is nearly instant.

The screenshot shows the service overview for 'redis-bgrkj'. At the top, there is a Redis icon, a 'Redis' label, and a green 'Running' status indicator. To the right are buttons for 'Open terminal', 'Delete service', and 'Clone this service'. Below this is a navigation bar with tabs for 'Overview', 'Tools', 'Backups', 'Metrics', 'Logs', 'Audit', 'Security', 'Alerts', and 'Notes'. The 'Tools' tab is active, displaying a list of tools:

VS Code	Your favorite code editor in your browser	VS Code
File Explorer	Navigate easily to different folders, upload or download files/folders	File Explorer
Reset Password	Reset your SSH/SFTP password	Reset Password
Terminal	Access virtual machine consoles	Terminal

This will open a pop-up window, providing you with a temporary password and Access link.

Copy the temporary password and click on the Access link.

Authenticate with the credentials on the file explorer page:

# elestio

## File Explorer

Once logged in, you'll be able to browse, edit, download, and upload the files on the server:

The screenshot shows the elestio File Explorer interface. At the top, there is a search bar with the text "Search...". Below the search bar, there are several icons: a grid icon, a download icon, an upload icon, an information icon, and a checkmark icon. The main content area is divided into a sidebar on the left and a main panel on the right. The sidebar contains the following items: "My files", "New folder", "New file", "Settings", and "Logout". The main panel shows the current directory path as "opt > app". Below the path, there is a table with the following columns: "Name", "Size", and "Last modified". The table contains the following rows:

Name	Size	Last modified
data	–	6 hours ago
insight	–	6 hours ago
.env	64 B	6 hours ago
cli.sh	78 B	6 hours ago
config.json	104 B	6 hours ago
docker-compose.yml	461 B	6 hours ago
save.sh	83 B	6 hours ago

# Web Terminal

From the Tools tab in the service overview, click on the "Terminal" button

The first launch can take 1-2 minutes because the Web terminal is installed on your service. The next launch is nearly instant.

# Reset SSH/SFTP Password

By default, password authentication is disabled. For security reasons, we recommend using SSH Pubkeys instead.

From the Tools tab in the service overview, click on the "Reset Password" button

The screenshot shows the Redis service overview for 'redis-bgrkj'. The service is running. The Tools tab is active, displaying a list of tools: VS Code, File Explorer, Reset Password, and Terminal. The 'Reset Password' button is highlighted in orange.

Tool	Description	Action
VS Code	Your favorite code editor in your browser	VS Code
File Explorer	Navigate easily to different folders, upload or download files/folders	File Explorer
Reset Password	Reset your SSH/SFTP password	Reset Password
Terminal	Access virtual machine consoles	Terminal

The dialog box is titled 'Reset SSH/SFTP Password' and contains the question 'Do you really want to reset SSH root password?'. It has two buttons: 'Cancel' and 'Accept'.

Reset SSH/SFTP Password

Do you really want to reset SSH root password ?

Cancel Accept
