

# File Explorer

From the Tools tab in the service overview, click on the "File Explorer" button.

The first launch can take 1-2 minutes because File Explorer is installed on your service. The next launch is nearly instant.

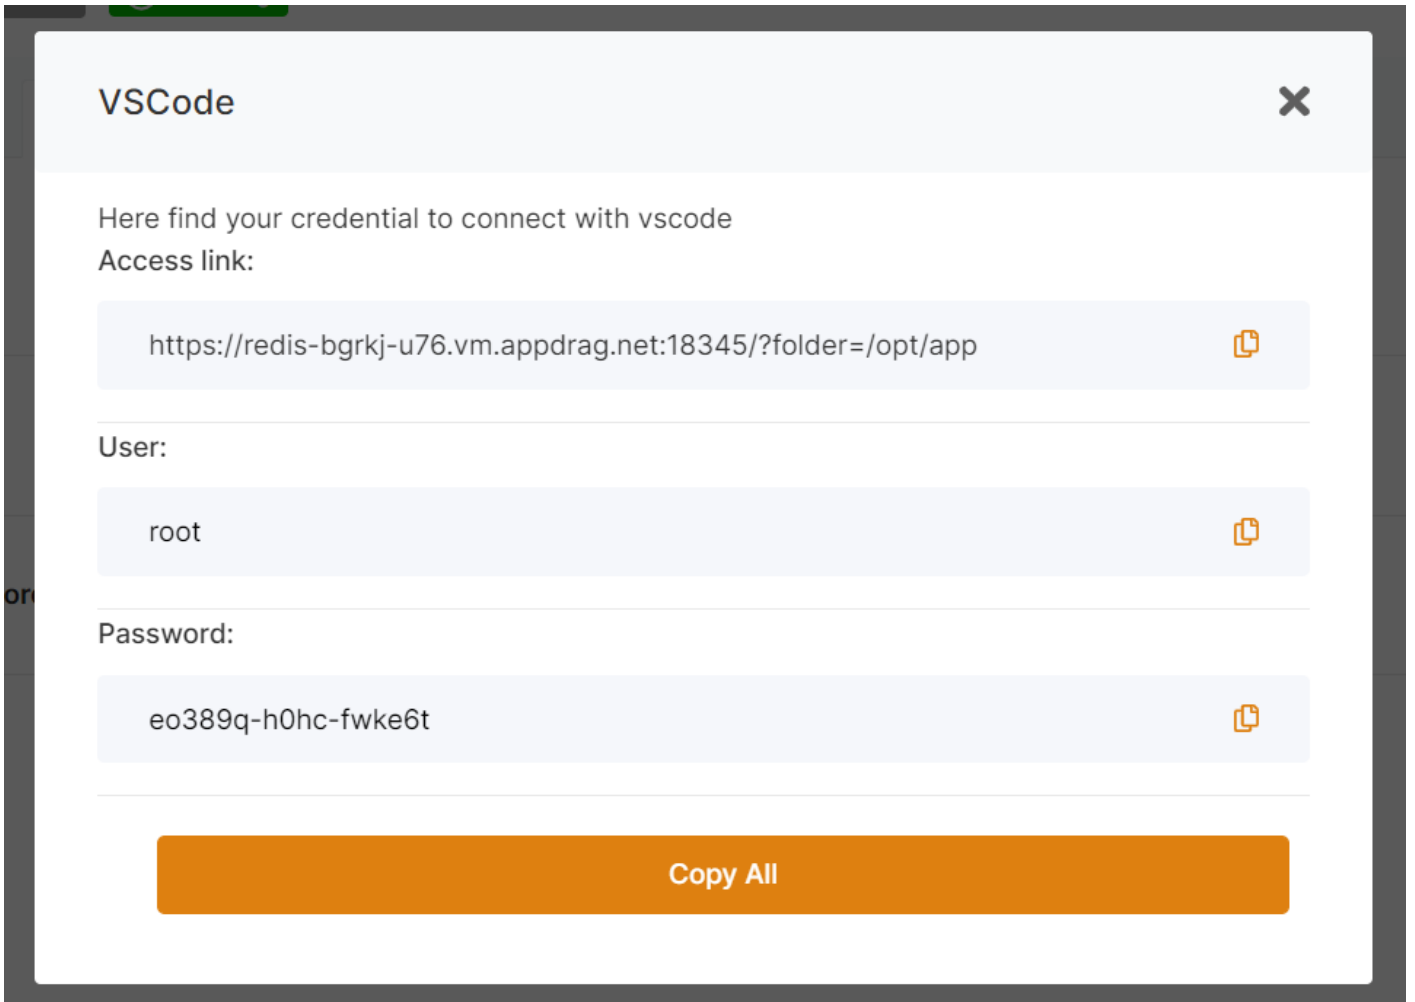

The screenshot shows the service overview for 'redis-bgrkj'. The 'Tools' tab is selected, displaying a list of tools. The 'File Explorer' tool is highlighted, with a description: 'Navigate easily to different folders, upload or download files/folders'. A button labeled 'File Explorer' is visible next to the description.

Tool	Description	Action
VS Code	Your favorite code editor in your browser	VS Code
File Explorer	Navigate easily to different folders, upload or download files/folders	File Explorer
Reset Password	Reset your SSH/SFTP password	Reset Password
Terminal	Access virtual machine consoles	Terminal

This will open a pop-up window, providing you with a temporary password and Access link.

Copy the temporary password and click on the Access link.

Authenticate with the credentials on the file explorer page:

# elestio

## File Explorer

Once logged in, you'll be able to browse, edit, download, and upload the files on the server:

The screenshot shows the elestio File Explorer interface. At the top, there is a search bar and navigation icons. The left sidebar contains a 'My files' section with options for 'New folder', 'New file', 'Settings', and 'Logout'. The main area displays the current directory path as 'opt > app' and a table of files and folders.
