

# Move a Service to Another Project

You can easily move your services between projects.

1. From the service Dashboard *Overview* tab, select *Move Service*.
2. Click *Move* to successfully move your service.

You can only move services to projects you own.

Move Service

Move service between projects

Move Service

### Move Service ✕

Choose the project you wish to move your service to:

**\*Your service will be assigned a new Global IP in the subnet of the project you move it to**
