

Move a Service to Another Project

You can easily move your services between projects.

1. From the service Dashboard *Overview* tab, select *Move Service*.
2. Click *Move* to move your service successfully.

You can only move services to projects you own.

Move Service

Move service between projects

Move Service

Move Service

Choose the project you wish to move your service to:

NOTE

Your service will be assigned a new Global IP in the subnet of the project you move it to.
