

# VSCode

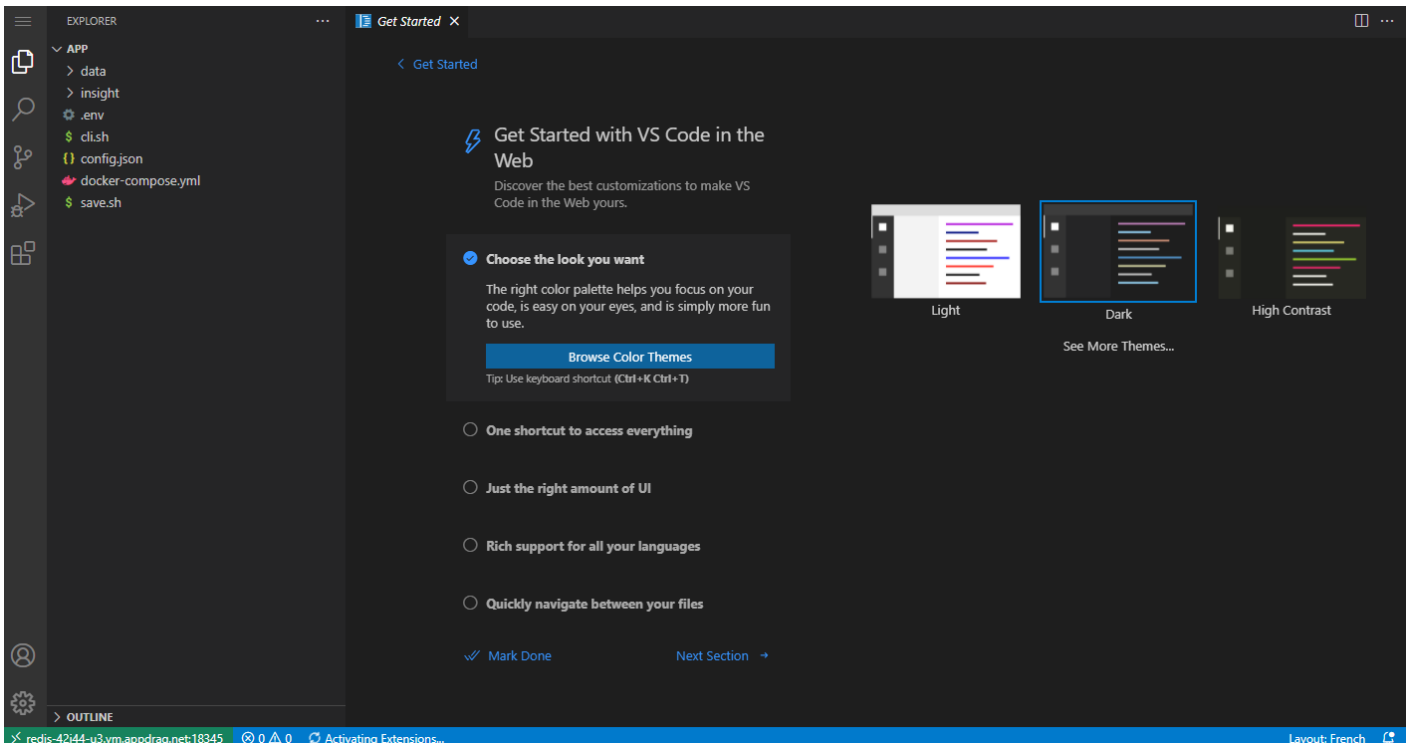

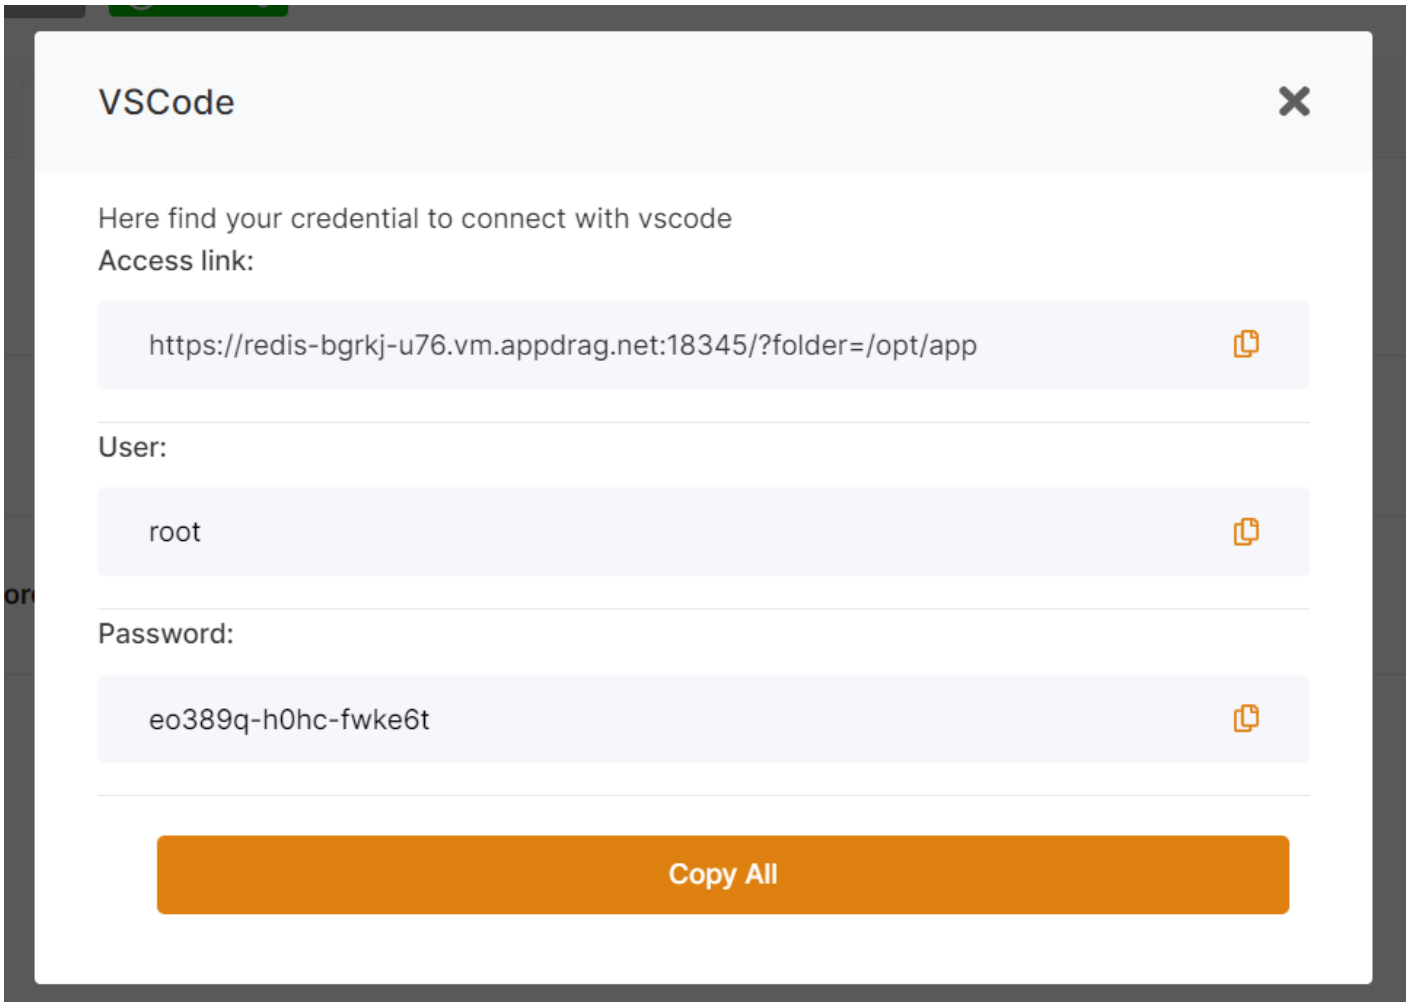

From the *Tools* tab in the service overview, click on VS Code button to start VS Code in the browser directly in the context of your service.

From there you can edit the configuration, download or upload files with drag&drop on the left column or open a terminal

The first launch can take up to 1-2 minutes while VS Code installs.

The screenshot shows the service overview for 'redis-bgrkj'. At the top, there is a service icon (Redis), a 'Redis' label, and a 'Running' status indicator. To the right, there are buttons for 'Open terminal', 'Delete service', and 'Clone this service'. Below this is a navigation bar with tabs: 'Overview', 'Tools' (selected), 'Backups', 'Metrics', 'Logs', 'Audit', 'Security', 'Alerts', and 'Notes'. The main content area displays a list of tools with their descriptions and buttons to launch them:

Tool	Description	Launch Button
VS Code	Your favorite code editor in your browser	VS Code
File Explorer	Navigate easily to different folders, upload or download files/folders	File Explorer
Reset Password	Reset your SSH/SFTP password	Reset Password
Terminal	Access virtual machine consoles	Terminal

Revision #5
