

Create a new volume

To create a new volume in an Elestio:

Step 1:

Open [Elestio Dashboard](#) and then click the volume tab in the left sidebar.

Step 2:

Select Service Cloud Provider

Elestio has the top 5 cloud partners in 85 locations across 27 countries (AWS Lightsail, Digital Ocean, Vultr, Linode, and Hetzner).

Step 3:

Select Service Cloud Region

Europe North America

fsn1

 Germany - Falkenstein

hel1

 Finlande - Helsinki

nbg1

 Germany - Nuremberg

Step 4:

Choose the Volume Size

You can choose the volume size between 10-10,000 GB.

“

Whenever you want, you can use our resize volume feature to change the size of your volume, but the new volume size must be larger than the old one.

Create a volume for \$0.1/GB/month. volumes are billed hourly

GB

10GB

10,000 GB

Step 5:

Select the target service where the volume will be attached(Optional)

It was an optional field, so you could configure it either during the volume creation process or after if you wanted to attach the volume to any service.

Selecting the active service from the same provider and region in these dropdowns will allow you to attach a service at the same time that you create a volume.

Your volume will be automatically formatted and mounted on your service.

Choose a Service

Step 6:

Provide Volume Name

“ If you want to deploy it with a different name, you can customize it. By default, we configure it with a dynamic unique name.

The volume name cannot be changed afterwards.

Name*

vol-gomp7

Step 7:

Click the **Create volume** button to create your volume.

Provider

Hetzner Cloud

Region

Europe, Germany
Falkenstein

Volume Size

10 GB

Target Service

No Service was found for this
region and provider.

Estimated Monthly Price*

\$1

*Estimated monthly price is based on
730 hours of usage.

Create Volume

In a couple of seconds, your desired volume was created on [elestio](#).
